You've heard it said "breakfast is the most important meal of the day". When it comes to academic success, most everyone would also agree that a "hungry child can't learn". In fact, studies continue to show that eating a school breakfast is associated with:

- ◆ Increased academic performance
- ◆ Increased attentiveness
- ◆ Reduced disciplinary issues
- ◆ Increased rate of attendance
- ◆ Increased likelihood of receiving adequate daily nutrients

The breakfast program at our school is planned to appeal to all students. Full-paying students find that the \$1.25 price is hard to beat. Students who qualify for free or reduced price lunch benefits enjoy breakfast at the same benefit level. Please join us for breakfast.
